City of Milwaukee Health Department Expands STI/HIV Testing to Northwest Health Center
Partnership with Diverse & Resilient provides free testing and consultation to city residents

MILWAUKEE – Mayor Tom Barrett and Commissioner of Health Bevan K. Baker have announced that the City of Milwaukee Health Department has partnered with Diverse & Resilient to expand testing services for sexually transmitted infections (STIs) and HIV to its Northwest Health Center (7630 W. Mill Rd.).

"Diverse and Resilient is a trusted partner in the work to eliminate health disparities, and we are proud to welcome them to our Northwest Health Center," said Mayor Tom Barrett. "The expansion of screening and testing benefits residents citywide, and I encourage people of all ages to get tested and know their status."

"Providing confidential testing and counseling services is welcome at a time when we continue to see too-high rates of STIs in our community," said Commissioner of Health Bevan K. Baker. "Through this partnership, we will continue the work to reduce the incidence of STIs and the risk of HIV infection."

Free, confidential STI and HIV testing will be available weekly at Northwest Health Center during the following dates and times:

Mondays	12:15 – 4 p.m.
Tuesdays	12:15 – 4 p.m.
Thursdays	3 - 6 p.m.

(1st, 2nd, and 4th Thursdays of the month)

The City of Milwaukee Health Department Keenan Health Center (3200 N. 36th St.) STD and HIV Clinic, which sees approximately 6,000 clients annually, will continue to offer free, confidential STI and HIV testing daily.

For more information, including clinic schedules, visit www.milwaukee.gov/health.
